Project Title: OH0010 - Rising Star Baptist Church, Youngstown, OH

Key Words: CONSTRUCTION – REPAIRS

Description: Our church for many years was the strongest church in the Steel Valley Baptist Association in attendance, missions giving, church planting support, and overall cooperation. In recent years the church has struggled and the attendance has declined, at one point dropping below 100 in average attendance. Under the leadership of their new pastor, Ken Donaldson, the church is on the upswing. But because of the debt load they are unable to do the building repairs needed to continue reaching out into the community. Currently the roof (flat) to their educational building (used to be a school) is in ill-repair and is in need of replacing. The church has put together about \$40,000 for repairs, and has been told that it will take about another \$35,000 to have enough to effect repairs if volunteers do the work. The church needs to be able to utilize the space made unusable by the roof leakage. However, they already owe about \$500,000 on the note for the worship center and offices constructed under a previous pastor. Because of the financial situation with the church, they cannot afford additional debt. Volunteers are needed to make the roof repairs.

Project Title: **OH0105 – Scioto Valley Baptist Association Jackson, Ohio**

Key Words: **Volunteer and Partnership needs**

Description: The area of need we have in Scioto Valley Baptist Association is for new works. Most of our works are small and function with limited resources and leadership. Within our 10 counties + we have over a half million people. With at least 65 -82% lost and uninvolved in church. That gives a large number of folks in need of eternal hope as well something worth living for now. The communities range from small population to large where works could be started. Our need would be for planters as well teams willing to come and work the fields preparing for the birth of a new work. Resources would also be needed to help with projects and funding for planters that will be staying on the job. I’m pretty sure that I will be able to get a works in our association that will partner with teams / sponsors from our sister churches in the south in this special planting mission venture.
Several locations along the Ohio River would be good for new work starts.
Portsmouth is a town of about 20,000 without any Southern Baptist work.
Athens a university town of about 40,000 with students has one congregation in the entire town.
Several other medium and small communities across our association would be places that need a ministry to reach folks for the Lord.

SUMMIT BAPTIST ASSOCIATION #15

Project Title:	OH0106 – Summit Baptist Association, Akron, Ohio
Key Words:	Volunteer and Partnership needs :
Description:	<p>We have 22 churches in our association, 9 of which are church plants. At present we have 1 church for every 50,000 people. We need people who are willing to come and help in church planting. Some of our needs are as follows:</p> <ol style="list-style-type: none"> 1. Backyard BC/VBS- -always needs for our existing churches and new CPs. 2. Survey work to probe new communities followed by Block Parties to build prospect list. 3. Construction/maintenance projects- nothing major but many of our church plants meet in facilities that need light constructions and repair. 4. Clean up- in the places our cp's meet there is always a need for cleanup. The church I am starting meets in a school that has few resources. Last year a group cleaned out and mulched the flower beds. This went a long way in helping our relationship with the school. 5. Servant evangelism projects- to build a positive image and soften response resistance to the Gospel 6. Sports Camp- for many of our communities this is a better outreach to unchurched/lost people than VBS and BBC 7. Summer Missionaries to create youth ministries and assist church planters. 8. Church Planters- guys who feel called to the challenge of a mission field where 80% to 85% of the people are lost, unchurched, or associate themselves with churches where they do not hear the Gospel. We have a strong need to have a church plant in Carroll County where at present we have none. 9. Anything a church is good at we could probably use assistance in. Please encourage pastors and church leaders to contact me to if they have any questions about Summit and our needs

5. **Mount Calvary** is a church that is 15 years old that is seeking to reach its community for Christ. They need spring or summer teams that will help with children's camps and other evangelism projects. This church desires to do anything to reach people for Christ.
6. Our home needs a new roof. We can provide the materials but we need laborers to put them up. Our house currently houses a student mission's intern and over the last 3 years has housed over 12+ summer missionaries that serve our churches. Our home has been a center for serving and loving our pastors and its staff. Currently our roof has begun to show signs of possible leaks. We are praying that God will make a way.
